ADVANCE works in the priority areas of entrepreneurship, education and justice for women and girls. It seeks to bring like-minded people together to share creative solutions. It provides training and awareness raising and highlights projects and programmes that have been successful especially in cross-cutting areas.

This interactive panel event looking at how information and communication technologies can be used creatively to assist in the lives of rural women and girls. Experts and activists from around the globe will share best practice of their innovative use of ICT and all forms of media.

There will be time for discussions amongst participants in order to make the most of the expertise in the room and a section to glean top key actions for learning and sharing. **All Welcome**
